**Description**

Mylo is a gorgeous Mule colt with some good pedigree! He's out of a nice very talented Jack and a well bred Quarter Horse mare. He's 14 hands now and should mature to around 15 hands. Owner is slimming down her herd and not breeding anymore so also selling his 14 year old 14.2 Mama who's a beautiful bald face Qtr horse named Lexi. She's not able to be bred and even though she was once registered she is being sold as a broodmare only. Lexi was injured as a 2 year old during reining training. She had surgery but cannot be ridden but she's a wonderful healthy broodmare!! Owner will include her with Mylo for only \$500 extra so \$4000 for both! Videos of both coming soon!
