

Rare Homozygous Silver Bay Dun Filly

\$ 9,500

Description

Rayna is a gorgeous Silver Bay Dun filly! She was born on April 6th so coming a year old this spring! She has been color tested and shown positive to be Homozygous for the Dun gene! Meaning she will always throw stripes and dark points on her offsprings! Rayna is very rare, not only for her beautiful Silver Bay Dun color but the fact she will pass her stripes! Owner purchased her from her breeder in KY so Rayna is KBIF eligible!! She has wonderful bloodlines such as Tobe, Sewell's Sam, Yankee Ragtime, Maple's Squirrel, Broken Bone's Sam's Son, Toco Sam and one of my favorites a stallion that resides in The Netherlands now Alloway's Spirit In Motion!! Many more famous stallions in this Fillies pedigree!! She handles good on the ground, leads, ties and picks up her feet! She has already been trailered also! Going by her leg measurements she should be around 14.3 hands. If you're a Rocky breeder or would like to start don't let this filly pass you by! Rayna will make a wonderful show horse and or smooth trail horse!! Rayna is up to date on her vaccines, worming, coggins and health certificate. Watch her video and you'll see how calm this filly is! Located in Wardensville, WV
