
12X30 Potable Barn With Stalls

\$ 5,000

Description

This portable barn was built by 4-Seasons Shelters. Owners bought it in 2018 but selling their property and no longer need it. It has 2 stalls and a 6X12 hay & tack room with a wood floor added! They had insulation added, painted and every option you can get added on it! There's two 12X12 stalls, with a sliding 4 ft door in the front of both stalls and two 3X3 sliding windows on the back sides! My friends paid \$13,000 in 2018 for this Barn with all the upgrades and this was before prices on wood & metal got so expensive! There's a video link on how to move these portable stalls below! Located in Gray Summit, MO
