**Well Bred Gorgeous Easy To Trail Horse**

**\$ 8,000**

---

**Description**

Shambala is a beautiful 15 hand coming 4 year old with excellent pedigree! Her Grand Sires are Prides Generator and Jose Jose! Tons of World Grand Champions and Hall Of Fame in her pedigree! She's a beautiful dark chestnut with light flaxen mane & tail with great conformation. She actually looks like a Rocky Mountain with her color and small pretty head! She's young enough that she can be trained for showing if wanted but already a great trail horse that's safe enough for any to ride that knows the basics! Shambala is a more whoa than go type horse so if you walk with Qtr Horses she's fine with that also. She would be a nice breeding prospect as well with her bloodlines. Shambala is very sweet, easy to handle on the ground and in the saddle. She rides out alone or in a group, carries saddle bags and does fine tied around other Horses. She's not spooky, rides along with a dog, goes in water, mud, over logs and steep terrain. Shambala stands great for the Farrier, mount, dismount, bathing, cross ties, leads and loads. She's best suited for an Intermediate Beginner that's confident and can continue to mold this beauty! Watch her video to see her out on the trails!
